ALSCO®

First in textile services worldwide

INDUSTRIAL
WORKWEAR SELECTION

Industrial workwear from Alsco is designed in consultation with our customers and is continually being developed to meet their changing requirements.

THE RANGE OFFERS:

- Heavyweight cotton drill for comfort in hot or humid environments.
- Polyester/cotton blends that combine the comfort of cotton with the stain resistance and durability of polyester, enabling a lighter weight fabric to offer excellent resistance to corrosive chemicals such as acids.
- UV protection from harsh weather conditions.
- Uniforms that are flame retardant and smoulder proof for intense-heat workplaces
- Two tone for high visibility and reflective tape for night time safety.
- A variety of colours, specifications and sizing.
- Practical garments that look good.

Combine this flexible product range with **Alsco's Managed Workwear Services** and you will be able to save time, money and build your corporate image.
